Researcher University of Rome Tor Vergata, Italy.	2017 - 2021
Research Assistant University of Granada, Spain.	2016 - 2017

Education

Ph.D. in Economics and Finance University of Rome Tor Vergata, Italy. Thesis: Essays on Human Capital Investments, Economic Inequality and Growth Grade: Summa cum laude	2021
Master in Economics University of Granada, Spain. Thesis: Returns to Education	2017
Bachelor in Economics Escuela Superior Politecnica del Litoral, Ecuador.	2015

Research Interests

Applied Economics - Public Economics - Economic Inequality - Education and Health Economics

Job Market Paper

The Effects of Education on Wealth Inequality over the Life Cycle [PDF]

Summary: This study explores the causal link between education and wealth accumulation, using three identification methods and a two-generation U.S. panel dataset. It finds that higher education, especially college and postgraduate levels, significantly increases lifetime wealth. A life-cycle model assesses educational policies' effects on wealth, suggesting that more college graduates could reduce wealth inequality. This research highlights education's role in wealth generation and distribution.
